## Lamprey Sighting Reporting Form

The Cow Creek Band of the Umpqua Tribe is currently working on lamprey conservation in the Umpqua Basin. The Tribe is developing a database and map of lamprey distribution and is looking for information about lamprey sightings throughout the Umpqua. If you have seen lamprey, and can give a general description of where you saw it, please fill out the form below and send it via e-mail to Kelly Coates [kcoates@cowcreek.com](mailto:kcoates@cowcreek.com). Your help in documenting this culturally and ecologically important species is much appreciated!

|   |  |
|---|--|
| <b>Name</b>                             |  |
| <b>Date of lamprey sighting</b>         |  |
| <b>Location</b>                         |  |
| <b>Lamprey species<br/>(Circle one)</b> | Lampetra richardsoni (Western Brook)<br>Lampetra ayresii (River)<br>Entosphenus tridentatus (Pacific)<br>Species unknown |
| <b>Life stage (Circle one)</b>          | Ammocoete    Macropthalmia    Adult    Unknown   |
| <b>Notes</b>                            |  |

Please send your information sheet to the Cow Creek Government office (2371 NE Stephens St. Roseburg, OR 97470) attn.: Kelly Coates, or e-mail it to: [kcoates@cowcreek.com](mailto:kcoates@cowcreek.com)
